EDUCATIONAL SESSIONS INCLUDED

8:30a – 9:30a        Educational Session I – Preventative Fire Maintenance - The cost and severity of bus  
fires vary. However, bus fires have the potential to be catastrophic. They have a much larger impact when  
you consider potential damage to your company's reputation. Prevention is the key to avoiding large fire

losses, and good vehicle maintenance is vital to vehicle fire prevention. In this session Scott Gallegos with MCI will walk us through some important factors and what you should look for to avoid loss.

*PRESENTER: Scott Gallegos, Technical Solutions Manager, MCI*

9:30a – 12:00p      Educational Session II - Multiplex *and* CAN line Diagnostics – How they are structured and their theory of operations after which we do a deeper dive into reading and understanding logic and schematics with some trouble shooting thrown in for good measure. Also included will be a session on explaining ways to find and diagnose CAN line issues

*PRESENTER: Scott Gallegos, Technical Solutions Manager, MCI*

12:00p – 1:00p      Lunch at Starline  
Sponsorship Welcome

1:00p – 2:00p      Educational Session III – Web Brake Seminar - Webb Product Training-Is an overview of what to inspection for regarding replacement, preventative maintenance, inspection/identification of parts.

*PRESENTER(s): Chip Hurst-Director of Sales with Webb Wheel Products & MCI Representative-Mike Kopish, Regional Parts Manager/Westcoast*

2:00p – 4:30p      Educational Session IV–IED – TSA coordinates voluntary risk-based programs designed to identify security vulnerabilities within the highway transportation network and offers options for reducing threats. In this session participants will get an overview of opportunities available for their organizations including Improvised Explosive Devices (IED's).
