EDUCATIONAL SESSIONS:

9:00 am – 12:00 pm Educational Session at Starline (HVAC) – Technicians - In's and out's of refrigerant and HVAC, led by William "Gator" Pryne. - Take part in this two-day training course where each participant will have the opportunity to achieve their certification in handling and purchasing refrigerants and indulge in the wealth of HVAC knowledge that Gator is eager to share. I would say EPA 608 (and 609??) HVAC Training and Testing.

This class will provide detailed information on the knowledge needed to pass the EPA 608 refrigeration lifetime certification. This certification will permit technicians along with EPA 609 to work on types of refrigerants and be able to purchase any quantity. EPA 609 restricts purchases to no more than 20 lbs at one time. EPA 608 certification testing can only be given by a certified proctor. MCI instructors are certified proctors for VGI Training Inc.

Presenter: "Gator" Pryne, MCI
